

DX-02

Secure Evidence DX-02

Features:

- Gen 2 Body Worn Camera
- One Key Operation
- Built in GPS
- Built in WIFI
- High Definition Video
- Clear Audio
- Infrared – 15m
- 2" Screen for immediate viewing
- Password Protected
- Admin Settings
- 360° Rotating Clip
- Tough overmolded protection
- AES128 encryption available
- Auto download option
- Further file management options

Latest in Body Worn Camera Technology.

Secure Evidence DX-02

The new Secure Evidence DX-02 has all the features needed in a Body Worn Camera system. The camera is built to the industry leading specification and quality control, providing a feature packed, easy to use and stable system.

Chipset

American Ambarella A7LA55 chipset and HD video processing system decoding engine ensure the powerful dynamic image processing function.

Overmolding technique

Hard ABS and soft ABS injection molding process, ensuring a good touch of holding and enhancing the strength of the resistance to fall, and make the data safe.

Video recording

Resolution: 1296P 30fps(2304*1296)/1080P 30fps(1920*1080)/720P 60fps(1280*720)/720p 30fps(1280*720)/WVGA(848*480)

Photographing

170° wide angle lens, Max 33MP, intelligent exposure, automatic white balance.

Pre-record and delay-record function

The function can be set with the management software.

One-key operation

By one-key operation to ensuring quick access to the working status in emergency to help protect user's legal rights.

Voice broadcast

It will give voice prompts when the video recording begins.

DX-02 SPECIFICATION

Specs	Chipset / Sensor	Ambarella / CMOS sensor
	LCD	2.0" (5cm) LCD
	Lens	170°wide angle lens
	Waterproof&dustproof	IP68
	Drop test	3M
	Memory	Default 32G (up to 64G)
	Working temperature	-30°C ~ 60°C
Interface & Function	Speaker / Microphone	Built-in / Built-in
	Audio/video input interface	Mini USB 2.0
	Built-in GPS	Get location within 2 min (cold boot)
	Built-in WIFI	Yes
	AES encryption	Optional
	3G/4G	Work with Wi-Fi interface
	On-vehicle function	Available
Photo	Output pixel	33MP max
	Exposure control	Auto
	File format	JPEG
Video & Audio	Video resolution	SHD: 2304X1296(30fps)
		FHD: 1920X1080(30fps)
		HD: 1280X720(60fps)
		HD: 1280X720(30fps) (default)
		WVGA: 848 x480 (30fps)
	Video (compression) format	MP4(H.264)
	Continuous video recording time	>7 hours @ 720p
	Audio format in audio mode	WAV
Continous audio recording time	>9 hours	
Operation	LED	Power-on, recharge, video record, audio record
	Night-vision distance	Energy-saving IR LED with 15 meters visual range
	Photosensitive reaction	Automatical IR cut
	IR switching way	Auto / Off
	Photo taking while recording	Yes
	Watermark	Year/Month/Day/Hour/Minute/Second
Size	Size(mm)	94mm(L)×60mm(W)×30mm(H)
	Weight	141g (battery included)
Power Supply	Built-in battery	2800mAh
	Recharging way	Dock / USB / car charger
Accessories	Standard	User manual/ crocodile clip/adapter/USB cable/ Single Dock / CD
	Optional	Car mount / external camera / mounting options
